📄 Summary

Frontend Software Engineer skilled in building responsive, scalable web apps with React, Next.js, and TypeScript. Experienced in turning Figma designs into clean, reusable components with focus on performance and user experience. Built real world projects and eager to grow into a mid-level frontend role.

🧠 Skills

Technical Skills – JavaScript (ES6+) | TypeScript | React.js | Next.js | Tailwind CSS | shadcn/ui | Responsive Web Design | REST API Integration | State Management | Git & GitHub | Figma to Code | UI Component Architecture | Performance Optimization | Accessibility (a11y) •

Soft Skills – Problem Solving | Attention to Detail | Adaptability | Teamwork

📁 Projects

DevLink 🔗

Developer Resource Management and Sharing Platform.

- Built a full-stack developer platform using Next.js, TypeScript, Prisma, better-auth, zod, react-hook form and PostgreSQL, enabling users to save, organize, and manage useful development resources in one place.
- Implemented secure authentication and user-specific dashboards, allowing personalized collections, easy access, and efficient resource management workflows.
- Developed clean, reusable UI components with a focus on minimalistic design and responsiveness, ensuring a smooth experience across devices.

DevMeet 🔗

Event Discovery and Community Platform.

- Built a full-stack event discovery platform using Next.js, TypeScript, Prisma, PostgreSQL, and shadcn/ui, enabling users to browse and explore community and tech events.
- Implemented Google authentication and secure user session handling to support protected user access and personalized workflows.
- Designed reusable UI components and responsive layouts, improving maintainability and ensuring consistent experience across mobile and desktop devices.

Realmont 🔗

Modern Real Estate Listing Platform

- Developed a responsive real estate listing platform using Next.js, TypeScript, Prisma, PostgreSQL, shadcn/ui, and NextAuth.

- Built dynamic property listing and detail pages with scalable component architecture and efficient data rendering.
- Optimized page structure and reusable UI sections for improved user navigation, maintainability, and performance.

Education

Bachelor of Science in Computer Science

10/2024 – Present | Ethiopia

Ambo University

Currently pursuing a B.Sc. in Computer Science, with academic and project-based focus on software engineering principles, problem solving, data structures, algorithms, and modern frontend web development.

Languages

English, Amharic, Afaan Oromo

Certificates

Cursor AI Editor Hackathon

Recognized as one of the winning participants.
